

KENJI D. SAKAMOTO

COMPUTER ENGINEERING STUDENT | FULL-STACK DEVELOPER | AI &
EMBEDDED SYSTEMS ENGINEER

Dagupan City, Pangasinan • 096282779901 • sakamotoken003@gmail.com
www.kenjisakamoto.me

SUMMARY

Computer Engineering student with hands-on experience designing AI-powered web applications, embedded systems, robotics, and full-stack software solutions. Skilled in React, Next.js, JavaScript, Python, C/C++, Arduino, Raspberry Pi, and cloud technologies. Passionate about building intelligent systems that bridge software and hardware.

EDUCATION

B.S. Computer Engineering

- Undergraduate: 2024 - Present

B.S. Computer Engineering

- Undergraduate: 2022 - 2024

PROJECTS

- Noctua — AI Student Assistant:** Designed and developed an AI-powered academic assistant using Next.js, LLM APIs, and cloud synchronization to deliver contextual responses through a modern, responsive web application.
- Spider Bot (GAGAMBOT):** Built an autonomous spider robot integrating an Arduino Nano, Raspberry Pi Zero 2W, computer vision, UART communication, and custom 3D-printed components for intelligent robotic navigation.
- OWL AI Student Assistant:** Developed an AI-powered student assistance kiosk for Universidad de Dagupan using the DeepSeek API, implementing retrieval-based knowledge management, role-specific information access, and contextual response generation to deliver accurate institutional information through an interactive kiosk interface.
- Bloodhunt Monopoly:** Created a browser-based multiplayer board game using HTML, CSS, JavaScript, and Firebase, featuring interactive gameplay, cloud synchronization, and responsive web deployment.

SKILLS

- Programming: JavaScript, Python, C/C++, SQL
- Frontend: React, Next.js, HTML5, CSS3, Tailwind CSS
- Backend: Node.js, Express.js, Firebase, SQLite, MySQL, REST APIs
- AI & Cloud: Google Gemini API, Prompt Engineering, AI Integration, Cloud Sync
- Embedded: Arduino, ESP32, Raspberry Pi, Embedded C++, UART, IoT, Robotics
- Tools: Git, GitHub, VS Code, Arduino IDE, Antigravity IDE

CERTIFICATIONS

- Responsive Web Design — freeCodeCamp
- Scientific Computing with Python — freeCodeCamp
